Hi Jennifer,

In anticipation of the imminent publish approval request, Jon suggested a change to the ordering of information in the Contact section. I've updated it accordingly, and wanted to run the end result past you one more time before going for approval.

To recap:

The proposed Web Browsing content can be previewed here: <https://ministryofjustice.github.io/itpolicycontent/content/confluence/web-browsing.html>

The content links to a list of the applicable profile policies, which are currently the old ones, as requested.

You can see a preview of the profile page here: <https://github.com/ministryofjustice/itpolicycontent/blob/master/content/confluence/web-browsing-security-policy-profiles.md>

If you can spare a few minutes for a final check, that would be greatly appreciated.

Thanks and regards,

Adrian
